CATEGORISE

Categorical	Quantitative
• University location	• No. of enrollments
• Type of degree	• %'s
	• State totals

Combine & Refine

Domestic vs International included in the column for each uni with a line cutting it, below domestic above international

Questions

- How to implement with Vega-lite?
- Is the narrative strong?
- Is the map manageable?
- Can I find the required statistics?

LAYOUT

FOCUS

- Time series lines are focused as the introduction
- Title with subtitle to explain what, why aspects
- Choropleth map for a physical visual representation
- Year filters and sliders to allow for analysis of changes over time

Title: Dashboard Draft

Author: Hayden Maron

Date: 19/10/25

Sheet: 2

Task: Analysing University enrolments in Australia

OPERATION

- Ability to filter by year throughout
- Time series line graph filterable by type of course
- Year comparison slider
- Tooltips throughout
- Heatmap select the state to analyze with a filter
→ Also include a legend with different colours per institution

DISCUSSIONS

- Enough user engagement?
- How to add more idioms?
- Reduce whitespace on dashboard

Title: Full Narrative

Author: Ayden Moran

Date: 19/10/25

Sheet: 3

Task: Narrative visualisation for viewer

Operations

- All graphs are interactive
- Sliders for years
- Filters and toggles

Discussions

- May need additional data
- How to line up the colouring
- Is Vega-Lite powerful enough?
- Can I make it visually pleasing for viewers?

Focus

Develop story further → More charts
Dashboard will be long
Have reduced whitespace

LAYOUT

Page 4

FOCUS

- Tried extra emphasis on story telling through text
- Adding more interactivity, with brush
- Improve information included on tooltips
- Bring the time series back to the front, it's a strong graph now with the brush filterability

Title: Narrative #2

Author: Ayden Moran

Date: 19/10/25

Sheet: 4

Task: Create Alternative narrative for the visualisation

OPERATIONS

- Added a brush feature to the time series to allow more interactive and user friendly filtering by year
- Keeping sliders
- Adding filterable legend to heatmap

DISCUSSION

- Added extra interactivity, which is a good positive
- Prefer the original layout for the narrative
- Still need an extra couple idioms
- Ready to plan Echo product

Title: Final Design

Author: Ayden Mason

Date: 19/10/25

Sheet: 5

Task: Final Implementation Design

FOCUS

- Implement Choropleth lumiance slider
- Add idioms to analyse domestic vs international student composition
- Restrict whitespace
- Cleaned up dashboard

OPERATION

brush implementation

stacked bar charts with year slider

DETAILS

- Implemented with Vega-Lite
- May need to clean data set
- Time to implement ~ 1 week
- May need extra research beyond data set
